THREE BERTH
jura

SPECIFICATIONS

Jura can be driven on an ordinary car licence and has three sleeping berths and three seatbelts. The third berth is a single bed recommended for a child or small adult.

Powered by the Peugeot 2.2 Diesel engine, Jura is just under six metres in length with a six speed manual gearbox, low-line chassis, luxury packed and highly manoeuvrable.

Jura has some off-grid capacity for 'wild' camping, with use of the leisure battery, gas and solar panels. However, we recommend at least three nights of a week on a site to charge up the battery, top

up water and empty the toilet cartridge.

The exterior is finished in smart white and grey with minimal branding, to ensure you feel she is truly yours. We've also added a wind-out awning, picnic table and chairs, as well as a bicycle carrier.

The drivers cab is light and airy – featuring cruise control, air conditioning, rear view camera and sunroof. DAB radio, bluetooth and solar panel. With two sprung "captain" style seats, driving is very comfortable.

Driver and passenger seats swivel to face the front dinette, including a small table and bench sofa which converts to a single bed, best suited to a small adult or child.

The main living space includes a kitchen complete with a gas hob, oven, grill, microwave, fridge freezer and Tassimo coffee maker. The bathroom features sink, shower and toilet with vanity mirror and cupboard storage.

The lounge section has two sofas which convert into a king sized bed with LED reading lights, mattress toppers and protectors for extra comfort. An LED smart TV and apple TV will keep you entertained. There is WiFi capability, DAB digital radio and USB charging points ensure connection to the real world is available – on your terms.

LED lighting provides a bright space, reading lights and a BOSE bluetooth speaker are also as standard.

We include a welcome pack of our Malt of the Month, cosy cabin socks and Scottish tablet (all to take home) and several 'weel-kent' route travel guides. There is also 24/7 technical support should you need it.

If you have any questions or further requirements, please get in touch with us – we are only too happy to help.
